

Please type your initial response to the client below:

Dear valuable client, I'm glad to work with you on your healthcare application.

I know you need to convert PSD files into custom code using HTML, CSS, and Javascript and

I understand what you want to do with this application and I'm started to work on a trial

The application will send it to and in these kinds of projects I'm using tech stack like Angular JS and Jue.js and I will all the best solutions to enhance an applicable application that meets your prediction.

I would like to inform you that the application will be easier to work with and this is will meet your specifications and your customer satisfaction.

I would like to tell you that the cost will be simple and I will give you a competitive price

Compared to market prices so that we will also deal in other projects in the future.

I'm Adel, a web applications developer with about one 1-year of experience with more than 30 clients in UK and US, and INDIA.

Your application will be completed in 3 months.

I will be happy to contact with you

Adel El prince
